

Gulfstream G550

SN 5221 – Reg. VP-CMD

Year of Manufacture
2008

Specs Updated
15 November 2023

Total time: 2468.3 FH

Cycles: 890

Engines: Rolls Royce BR700-710C4-11

- #1 S/N 15545: 2468.3 TT – 890 Cycles
- #2 S/N 15546: 2468.3 TT – 890 Cycles

APU: Honeywell RE220 S/N P-547: 2253.5 TT

Remarks - Aircraft FAA Certified

- Aircraft has been hangared in its entire life

- Seating consists of four single seats, two double seats in the cabin and one single seat in the forward communication area

- Two divans facing each other on the LH and RH side of the aft cabin.

- The single seats are designed with integral headrests, recliner leg rests, a single lever track and swivel control, full berthing capability, reclining control, lumbar switch panel in the armrest seat belt / shoulder harness restraints systems.

- The double seats have the same equipment and function as single seats except the electric lumbar support and the lateral tracking capability is limited

Gulfstream G550

SN 5221 - Reg. VP-CMD

- Each divan seats four passengers are equipped with seat belts / shoulder harness restraint systems for all seat positions. There is an audio switch panel in each divan forward armrest and provides headset and audio control.
- An acoustical door is installed in the vestibule at the MED for sound dampening
- Electrically operated window shade and emergency exit window shade assemblies are installed on the aircraft. Each window shade assembly consists of two separate, cellular, pleated shade fabrics (one sheer, one shade), folded in accordion fashion.
- The galley assembly, installed on the FWD RH side of the vestibule.
